Hello again,

Thank you for what appears to be the fast efforts taking place in terms of the first paperwork going through for the Pro Se lawsuit against Andrew Clark and Katie [REDACTED]. The \$405 is still on my commissary here ready to take. Please take it.

If I could have you send me another Pro Se packet, I would be appreciative. There are a lot of lawsuits to be had over my 4+ year long circumstances. The Robert H Jackson US Courthouse and the Buffalo Federal Public Defenders Office knows they are very very guilty of. Rochester is innocent.

I expect the next \$405 to come your way via money order. There's a 10 day gap here at Monroe County Jail in terms of only being allowed to put on \$250 to commissary every 10 days. Maybe you can get that changed? But that first \$405 is here on my commissary account.

Thank you in advance,

 Former Cattaraugus County Libertarian Chairman Luke Wenke

P.S. Magistrate Kenneth Schroeder of Buffalo is a perfectly fine non-conflict of interest for the first Pro Se lawsuit if a Rochester Magistrate is not selected. Fine that US District Judge Vilardo is also involved. I read Associated Press in here. One US District Judge's decision can change laws nationwide. That's what we need.
